There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Catarrh cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

## Sound Values—Good Service—Courteous Treatment

THESE are the advantages you gain by trading with the IHC local dealer. He is a good judge of values in farm machines. He sells machines of guaranteed quality, and stands behind them to see that they make good. When he sells you an

### IHC Manure Spreader

Kemp 20th Century, Corn King, or Cloverleaf

he sets up the machine, tests it, and makes sure that everything is right before he delivers it. He shows you how to use the machine, to make it last longest. In case of accident he can furnish repair parts promptly—repairs that fit. He gives you service worth far more than it costs you.

IHC manure spreaders are made in both return and endless apron styles, but all aprons run alike on large rollers. Non-friction roller bearings are used wherever practical, making the machine easy on the horses. The feed is variable and positive. The machines pulverize the manure and distribute it evenly in a light or heavy coat, as may be needed. Because they distribute manure properly, IHC spreaders use less than half as much manure as fork spreading to cover the same amount of ground. They make one ton of manure go as far as two, and do better fertilizing with far less labor than the old-fashioned method.

The IHC local dealer has the style and size best suited to your needs. See him for catalogues and full information, or write
